**New luxury vacation rental offers a scenic getaway**

Eagle's Nest Retreat, a newly built vacation rental home just north of Vancouver, has opened its doors. Included in the vacation experience are high end amenities and unobstructed ocean views of Howe Sound. Its location provides ideal accommodation for the Olympics as well as golf, corporate, and family retreats.

Vancouver, BC, September 21, 2009 - Nestled on a hillside overlooking the glaciers and fjord waters of Howe Sound lies Eagle's Nest Retreat, one of the highest end vacation rental homes in the Vancouver – Whistler corridor. Newly constructed, Eagle's Nest Retreat opened its doors to welcome guests in the summer of 2009.

The vacation home is owned and run by Rick Fischer who also designed its concept and feel. In choosing the location Rick says the high end golf community of Furry Creek, just 30 minutes north of Vancouver, was a natural choice. "Furry Creek is positioned along one of the top scenic drives of the world, with majestic snow capped glaciers on one side and the soft green rolling hills of Furry Creek Golf & Country Club on the other," Rick said. "With views like this, its accessibility, and being right next to BC's most scenic golf course, Eagle's Nest is perfect for weekend getaways, golf retreats, Olympic accommodation, and executive or group rentals," he adds.

He purchased the prime ocean view lot in 2006 and over the next 2 and half years designed and built one of the most stunning homes in Furry Creek. "I designed this idyllic retreat as a vacation rental home, aiming to fully capture the breathtaking ocean views and surrounding feeling of tranquility to both inspire and rejuvenate guests," Rick said.

Eagle's Nest Retreat features 4 comfortable guest bedrooms, each one themed and each with ocean views. The master bedroom and ensuite bathroom create the perfect setting for those looking for a romantic getaway. Features here include a fireplace, ocean views from both the bed as well as the enormous soaker tub, heated bathroom flooring, his & hers sinks, dual shower heads including a rain shower, and French doors opening to a private balcony.

Rick explained "For people seeking luxury, relaxation, and fun, Eagle's Nest Retreat provides all three. Our amenities include a custom designed home theatre room for watching your favorite films on the big screen, designated home audio with individual volume controls in each room, a designer kitchen with stainless steel appliances and granite counters, a waterfall garden, pool table, BBQ, Italian tile flooring, fitness room, Turkish micro-terry bathrobes and towels, free internet connection, several plasma TVs, three fireplaces including one outdoor, and over 1000 square feet of deck space perfect for sitting and entertaining. And then of course there's our enchanting hot-tub, luxurious in every sense of the word. Built into the main deck, water cascades over the infinity edge of the tub and appears to fall into the ocean below. Illuminating lights, spray jets and a backrest waterfall make this the ultimate hot-tubbing experience. Not to mention it's also located right next to the outdoor fireplace!"

Guests have already come from as far away as Japan, and the comments all share a similar theme. As one recent guest wrote, "The view is phenomenal and beyond description. Eagle's Nest Retreat far exceeded my expectations, in every way."

Rick added "The views from this luxury 'contemporary Zen-spa' home rival the world's most beautiful, and I feel it's my duty to share this beauty with as many people as possible. It's an honor for me to offer to guests this home away from home in paradise."
